A versatile privacy booth for the ever-changing workspace

BuzziHug is a semi-enclosed privacy booth that instantly creates a cozy and safe working environment for employees to hold video calls or to get focused work done. Due to its voluminous upholstered body, BuzziHug effectively mitigates excessive noise while doubling as an unexpected design element within any workspace. BuzziHug is equipped with a built-in table in either Antwerp Oak or White Laminate. Select an optional LED light with two USB charging ports so you can keep your laptop, smartphone, and other devices charged at all times. Due to its lightweight and flexible attributes, BuzziHug can be placed anywhere in an open space. Built with a sturdy core and adjustable feet, BuzziHug can also be bolted to the ground to prevent it from falling over during earthquakes and seismic shocks.
