

.03

Maarten Van Severen, 1998

.03

The aesthetic hallmark of the .03 chair is its sleek, slim shape – a design that can be seen as an expression of the concept ‘less is more’. At the same time, the chair is unexpectedly comfortable: made of resilient polyurethane integral foam, the linear shape of the seat shell adapts to the body. When the sitter leans back, the

.03 stacking

upper part of the backrest yields slightly – a pleasant sensation created by the integrated leaf springs. The extraordinary comfort of .03 is first revealed upon use.

#### Materials

- **Seat shell:** integral skin polyurethane foam. Shell with upholstered effect, self-supporting on a tubular steel frame. Flexible backrest with integrated leaf springs.
- **Base/stackability:** back legs in tubular steel, front legs in aluminium profile, powder-coated. Stacking and non-stacking versions. Up to 10 chairs can be stacked on the floor, up to 20 chairs on a stacking trolley. Fitted with plastic glides for carpet or felt glides for hard floors.

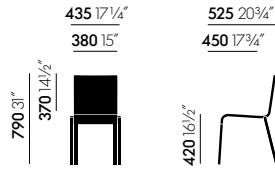

**Outdoor applications:** powder-coated base suitable for use in outdoor conditions on a temporary basis. Avoid prolonged exposure to rain, snow or direct sunlight. Product may be kept in covered outdoor spaces protected from the elements.

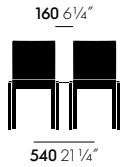

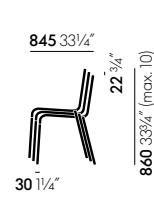

**DIMENSIONS** (in accordance with EN 1335-1:2000)
