Grand Executive

Grand Conference

The Grand Executive chair combines the elegance of the Grand Repos lounge chair, which was designed by Antonio Citterio for the Vitra Home Collection, with the functionality of a modern office chair. The dignified aura of the Grand Executive chair is complemented by a sleek aesthetic. Covered in high-quality leather, its softly padded upholstery provides supreme comfort. Decorative seams highlight the chair's handcrafted details and delineate its volumetric structure. The FlowMotion mechanism can be adapted to the individual user to ensure synchronised comfort in every sitting position. The Grand Executive Highback model is equipped with an adjustable neck cushion.

The Grand Executive chair comes in different versions: Grand Executive Lowback is distinguished by its lower backrest and Grand Executive Conference offers a sophisticated solution for visitor and conference seating. Together with Grand Repos and Repos, they form a family of chairs that gives a unified look to offices and conference rooms as well as lobbies, waiting zones and reception areas.

## Materials

### Grand Executive

- **Executive armchair in accordance with EN 1335.**
- **Mechanism:** FlowMotion mechanism with individual adjustment of backrest resistance.
- **Backrest and seat:** seat shell with integrated armrests and height-adjustable neck cushion (Highback). Backrest shell made of plastic; seat and back upholstery made of polyurethane foam. Leather cover.

# Leather Premium F Home/Office, L50

The properties of Leather Premium F are equivalent to those of Leather Premium. However, Leather Premium F is processed with a tanning agent extracted from olive tree leaves (a waste product of the olive harvest), and the entire production process is carried out with the least hazardous chemicals in the smallest possible amounts. This sustainably produced semi-aniline leather is available in a selection of 6 colours.

Material	Semi-aniline nappa leather with a very soft and supple feel, vegetable tanned
Fastness to light	Type 5
Thickness	1.1–1.3 mm
Fastness to rubbing	Grade 4 dry and wet
