Metal Side Tables

The Metal Side Tables belong to the category of furnishings that do not stand at the centre of attention, yet are indispensable for the completion of any interior. As small and rather inconspicuous side tables, they serve a variety of valuable purposes. The thin table tops and the voluminous forms of the plinth-like bases create an appealing contrast.

The Metal Side Tables are available in both indoor and outdoor versions.

Metal Side Tables Outdoor

Metal Side Tables are valuable additions to every lobby or lounge. They are available as indoor and outdoor versions and come in three different sizes.

Materials Indoor

- **Table top and base:** bent and welded sheet steel, powder-coated with highly polished finish.
- **Glides:** felt glides.

Materials Outdoor

- **Table top and base:** bent and welded sheet steel, galvanised, optional powder-coating with fine surface texture.
- **Glides:** polyamide.
- **Applications:** galvanised Metal Side Tables, optionally powder-coated with a fine surface texture, are suitable for indoor and outdoor use.

Metal Side Table (Outdoor)

The galvanised Metal Side Tables, optionally powder-coated with a fine surface texture, are weatherproof occasional tables and come in several sizes.
