

James

Task chair

Design — Iiro Viljanen

The James task chair has all the features required of a good task chair. Easy-to-use adjustments allow the chair to be adjusted to different operating situations and people. James is particularly well-suited for drop-in workstations. Available with different sizes of seats and backrests.

MATERIAL DESCRIPTION:

5-star base (ø 708 mm): black aluminium or plastic, polished aluminium, plastic parts black.

Armrests: upper part black, shaft black.
