

CLIP

Clip is an exciting piece of furniture which is neither a table, chair or easy chair. Or perhaps it is all of these at once? It moves in the borderland between many pieces of furniture and works as a link between sofas and desks. Clip is a piece of furniture with its own strong expression and its very existence encourages creativity. The frame has a swivel base with return capability. Connectors are available as optional extras. Red Dot Award 2015.
