

## **LE MUR**

Sitting high or low on one and the same piece of furniture. Or a room within a room. These are some of the ideas behind the seat landscape Le Mur. A modular system that can be tailored to your requirements. Le Mur can be round, pivoted or straight. It provides natural screening and sound reduction thanks to its high padded back. The irregularly placed buttons on the back of Le Mur are not just there for decoration. As they go all the way through, on the rear side they can function as clothes hangers or devices for hanging things on, such as magazine holders.
