

TRIO

An elegant format for a recycling bin that easily blends into a variety of different interiors. Advanced moulding and splicing of the veneer surfaces have been used to form a receptacle in the shape of a clover. Trio recycling bin holds a total volume of 95 litres and has receptacles for three separate bin liners. It is suitable for sorting waste into three sections – one for cans and plastic bottles, one for paper and one for other waste. Trio is available in birch with a lid of grey powder-coated steel plate that displays the recycle symbol.
