

VAGABOND

What distinguishes the Vagabond table from others is its diversity. The castors make it easy to move and it can for instance be used as a meeting table and a desk. It can also be a dining table in a canteen or in a restaurant. The table top can be placed at three different heights; 730, 900 or 1100 mm. The table ends act as notice boards and the accompanying magnets may be used to hang pictures, messages or sketches directly onto the frame. There is also a rod at the top that can be used to hang lights, plants or other interior fittings on. Frame in CbM* powder coating. Matt chromed steel tubing.

*CbM = beige, mustard yellow, dusty pink, rusty red, burgundy red, blue grey, green, grey, dark grey, black and white
