Inspired by the clean, minimalist chairs of mid-century Scandinavian design, Vad is a complete seating system.

Injection moulded in recyclable polypropylene, the shell with its soft curves enhances comfort and style.

The seat is produced with "*Polygiene*[®]" technology, which uses tiny amounts of silver salt to inhibit the growth of bacteria, thus preventing odours and ensuring the hygiene of human skin.

The Vad chair is available:

- › stackable with metal legs
- › with four-spoke swivel perch
- › with solid wood legs

and

- › with coloured polypropylene shell
- › with padded polypropylene shell upholstered in leather or fabric
- › with polypropylene shell covered in natural leather

The three variants of shell and legs cross each other generating nine chair variations.

Designer

Luca Nichetto

Luca Nichetto was born in 1976 in Venice, where he studied at the Art Institute. Afterwards he attended the University Institute of Architecture of Venice (IUAV), where he earned a degree in Industrial Design. He began his professional career in 1999 by designing his first projects in Murano glass for Salviati. That same year he began his collaboration with Foscari, for whom he not only designed products, but also worked as a consultant on new materials research and product development (2001–2003). In 2006 he launched his own design firm, Nichetto&Partners, which specializes in industrial design and offers its services as a design consultancy. In 2011 he also opened another professional office in Stockholm, Sweden.

Nichetto has been awarded a number of international prizes, including the Gran Design Award (2008), the Chicago Athenaeum Museum of Architecture's Good Design Award (2008), the IF Product Design Award (2008) and the Elle Decoration International Design Awards' (EDIDA) Designer of the Year award in the Young Designer Talent category (2009).

Apart from participating in various design exhibitions in Europe, the U.S and Japan, Nichetto has also been the subject of important retrospective shows mounted in prominent European cities, including Venice, London, Paris and Stockholm, and he has served as art director for a number of international design events.
