Stefan Diez

Stefan Diez introduction to furniture design started in 1991 when he started an apprenticeship as a cabinet maker. Diez went on to study at Staatliche Akademie der Bildenden Künste in Stuttgart in 1996 where he attained a Diploma in Industrial Design. He founded his studio in 2003 and since then has worked in various fields of design ranging from furniture and tableware to industrial design, as well as exhibition design.

Some of his products have received international design awards, among others the “Designpreis der Bundesrepublik Deutschland”, the “IF Gold award” and the “red dot best of the best award”. From 2007 to 2014 he was Professor for Industrial Design at the HFG Karlsruhe. Since 2018 Stefan Diez is Professor for Industrial Design at the Universität für Angewandte Kunst in Vienna.

FUNDA BOLD

Utterly captivating

Collection designed by Stefan Diez, 2022

Following the great success of the Funda collection, we have extended the range with the new Funda Bold, an oversized lounge chair with a matching ottoman, designed in collaboration with Stefan Diez. Funda Bold is brave, suggestive, and utterly captivating. Its daring silhouette and wide proportions are made for lounging and slow working in offices, homes, and intermediate spaces.

Funda Bold represents the balance between precision and the human-centered approach of his designer Stefan Diez. His constant search for both industrial innovation and visual appeal has achieved a collection with curved and friendly shapes that fosters circular economy. Its development has been based on combining a metal structure designed to last over time, and an upholstered seat that can be replaced after years of use or severe wear and tear. Bold comfort reinvented.

Featuring on these pages, Funda Bold with cushion and headrest and Serra round low table

To increase wellbeing whilst solo working, the new armchair collection includes a practical ottoman, that can be used as a relaxing footrest or independent seat. Funda Bold also includes matching cushions, designed to hug the user, and give support to the lower back.

Funda, Work in Progress

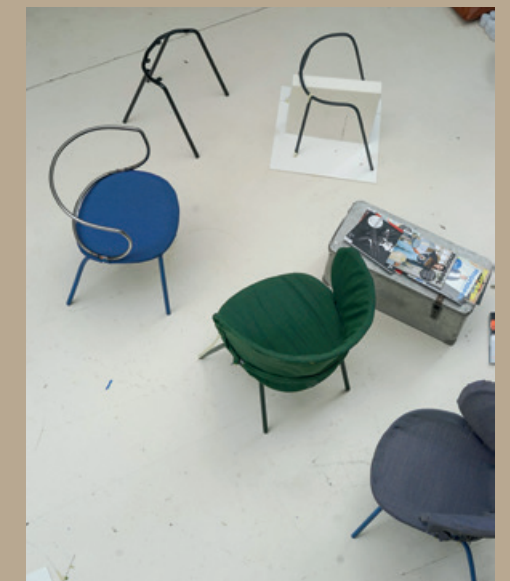

The cover symbolizes the balance between precision and the human-centered approach of Stefan Diez. His constant search for both industrial innovation and visual appeal has attained a delightful collection known for its curved and pleasing shape, and its distinctive wrinkled upholstery.

Thanks to an interior technical textile, with Funda we simplify the usual components of a chair (structure, seat and fabrics) to structure and upholstery, without compromising on resistance and comfort.
