

Care series

Together with Guardian, we offer a range of care products designed to extend both the life and durability of your design. Our textile protector leaves an invisible protective film that reinforces the natural qualities of the fabric, without altering them in any way. We recommend that you apply the textile protector before using your furniture to ensure optimal conditions for the durability of your furniture.

23-001-28

Linoleum Soap

Ingredients

Water, Coconut Oil Acid, Preservative

Maintenance

Apply the soap with a soft, lint-free cloth and wash the entire piece of furniture with soft, circular movements. Let the soap stay for about 5 minutes and wipe with a damp cloth. If the surface is dirty, wipe first with clean warm water and then wash the surface with the soap with circular movements so the soap will come to light foam. Then wipe with a damp cloth and when the surface is dry then process as described on the bottle. It is recommended to use Bolia Linoleum Soap 4-6 times a year.
