# WorkValet™

Locker System

Lock.  
Store.  
And So Much More.

WorkValet™ is a laminate locker solution designed for the hybrid workplace, giving people a convenient and secure place to store personal belongings throughout the workday.

A bay provides a warm welcome as people come into the hybrid workplace. Typically planned near the entrance of the building, a bay has a high quantity of lockers in a variety of locker sizes.

A border provides storage and space division within a hybrid neighborhood. Planned near workstations, it is primarily for individual use within a team space.

The hub is a great addition to in-between spaces. Typically planned with ample space around the hub, it welcomes people to gather around its worksurface to socialize or collaborate.

## Design Flexibility

The WorkValet system enables a variety of personal storage configurations for the hybrid neighborhood. Designed in three primary application typologies—bay, border, and hub—WorkValet allows you to create just the right storage solution for any space.

The bespoke credenza goes beyond traditional application typologies, demonstrating the design flexibility in creating unique storage solutions.

Bring in elements of the natural world with the optional planter that supports biophilia and well-being.

## Make It Your Own

Beautiful and functional features allow you to configure the inside—and outside—of WorkValet to meet the unique needs of the space, team, and user.

Adding a coat rod provides a place to hang a coat.

The raised leg base provides an elevated aesthetic.

The drawer supports hanging folder storage and denser materials.

Markerboard surrounds on the back add a surface for brainstorming or keeping work persistent.

## Safe and Secure

Keeping personal items safe and secure provides peace of mind as people transition into the workplace. Reservable or available on-demand by the hour or day, WorkValet offers a variety of the lock options that can be easily tailored to an organization's needs.

Locking options include basic key, combination, RFID, and network locking.

## Materiality Matters

A wide array of laminate options encourages personalization and expression. When warm and textured laminates are layered with paint, color, and fabric, the most welcoming and inspiring spaces where people want to work are created.

# A Look at Materiality

From light to dark, and subtle to expressive, the breadth of laminate choices paired with complementary accent paints allows WorkValet to fit the mood of any space.
